PROFILE

UX Designer and Front-end Developer with a background in patient care. Experienced in finding solutions for patients by creating and implementing detailed strategies based around their health needs. Skilled at communicating complex issues with various stakeholders and always meeting high expectations.

PROJECTS

FRONT-END DEVELOPMENT (Online Portfolio)
CareerFoundry | 2022 - 2022

- Implemented principles of Html, CSS and JavaScript to build my portfolio site which enables me to showcase my work.
- Used best practice techniques such as mobile-first, responsive design and progressive enhancement to create a webpage that is accessible on all devices.
- Researched the latest trends in web design to attract more traffic on the site.

UX/ UI DESIGN (Olive : Behance)
CareerFoundry | 2021 - 2022

- Applied all stages of design thinking to develop a mobile app that solves user problems regarding fitness sustainability.
- Conducted research to determine the business requirements and user pain points addressing them throughout the design process.
- Created and moderated user tests for prototype iterations of different fidelity levels.

WORK EXPERIENCE

PHARMACY MANAGER
Intermountain Healthcare | 2018 - 2021
.

- Managed and trained a team of technicians to ensure patents received their appropriate medication on schedule. Maintained regulatory compliance standards while running medication compounding processes.
- Communicated with all members of the pharmacy team to ensure delivery of high quality work leading to customer satisfaction.
- Developed a high level of attention to detail which is required in the medical field leading to decrease in complaints.
